

Project title | R&D PROJECTS COMPANIES IN COOPERATION

Project code | POCI-01-0247-FEDER-047073

Project name | HealthyPETFOOD - PetFood formulations to promote health and quality of life.

Main objective | OT1 - Strengthening research, technological development and innovation.

Intervention region | North and Center of Portugal

Lead Promoter | SEBOL - COMÉRCIO E INDÚSTRIA DE SEBO S.A.

Copromotors | SORGAL-Sociedade de Óleos e Rações, S.A., I.T.S. – Indústria Transformadora de Subprodutos, S.A., Universidade Católica Portuguesa, Instituto Politécnico de Bragança, Universidade do Minho e Universidade do Porto.

Approval date | 05-01-2021

Start date | 01-07-2020

Completion date | 06/30-2023

Total eligible cost | EUR 1,059,935.11

European Union financial support | ERDF - EUR 695,597.63

Goals

The HealthyPETFOOD project comprises the design of new PetFood formulations to promote health and quality of life, based on functional lipid fractions from fish by-products, peptide fractions by physico-chemical and enzymatic methods and of high value for autohydrolysis.

Activities

- 1 - Technical specifications.
- 2 - Concept Development.
- 3 - Obtaining Prototypes.
- 4 - Tests.
- 5 - Promotion and Wide Dissemination of Results.
- 6 - Technical management of the project.

Expected / achieved results

With the HealthyPETFOOD project, it is intended to obtain new PetFood formulations to promote health and quality of life, with high added value and wide dissemination through the wide dissemination plan.
